

# BIRKDALE BOW HANDLE BOLT

**PRODUCT CODE PREFIX: 114**

**GATEMATE CODE: 576 4501**

## DESCRIPTION

Bow handle bolts are designed for securing both the top and bottom of doors and gates. They feature an extended length handle for ease of operation. With the pre tensioned stay in the handle this allows it to remain in the inverted position. It is supplied with a receiver plate allowing the bolt to be fitted in either flush frame mounting, recess frame mounting or floor mounting applications.

## CONSTRUCTION

Manufactured from mild steel.

**GALVANISED:** Coated in accordance with BS/EN ISO 1461:2009. The average coating thickness is 45 microns. If the product is fitted correctly and the surface finish is not damaged the service life of 15 years can be expected.

**BLACK POLYESTER COATING:** Polyester powder coating is a type of coating that is applied as a free-flowing dry powder. The powder is a thermoset polymer, which is used to create a hard finish that is tougher than conventional paint. Powder coating is mainly used for the coating and protection of metals. Polyester Powder Coatings offer durable decorative finishes in a wide range of colours, textures, and gloss levels. They are formulated to provide maximum corrosion

resistance, colour stability and gloss retention. They are suitable for interior and exterior use and entirely T.G.I.C free (triglycidyl isocyanate crosslinkers).

**All items are coated in accordance with BS-13438.**
